## Sami Ullah, Digital Product Designer

I am self-taught User Experience designer who has 3 years of industry experience. I've spent my time focusing on UX, UI and Product Design. I am self-aware of the impact our solutions have on people's lives, and this is the reason why I always give my best to create a seamless and delightful experience.

### Details

Nationality Pakistani Date of birth 20 May 1996

### Employment History

#### Product Designer at Conceptbeans, Lahore

March 2020 — Present

While at concept beans I learn mostly about UX, user centric design approach, community driven design. I'm responsible for creating user journey, workflows, sitemaps, wireframes & translating them into working design prototypes.

#### User Experience Designer at TechSwivel, Remote

February 2021 — Present

I am working as part time User Experience designer with TechSwivel. While working with TechSwivel I am responsible to manage design team and translate client requirements into mockups, low fidelity wireframes & functional design prototypes.

#### Jr. UI/UX Designer at Nestedlogics, Islamabad

January 2019 — February 2020

Worked as an junior UI/UX designer with NestedLogics. I was responsible for creating mockups, low fidelity wireframes & design prototypes. I learn a lot of new aspect of user experience while in NestedLogics.

### Education

#### Software Engineering, UET Taxila, Taxila

June 2013 — June 2018
